## Back cushions

### Day

A sofa with Day cushions has back cushions that usually comprises one or a pair of large even cushions making up the backrest of the sofa. It is the most common look of a sofa and provides excellent support and comfort.

### Night *(Not available in leather)*

A sofa with Night cushions has several back cushions comprising and forming the backrest of the sofa. This configuration gives a sofa a more lounge like feel and a softer back support than a Day sofa provides.
